Professional Summary

Computer Science graduate and Junior Back-End Developer with experience building RESTful APIs and web applications using Node.js, Express, React, PostgreSQL, and MongoDB. Strong foundation in OOP, data structures, and software engineering principles, with a focus on writing clean, maintainable code.

Work Experience

Web Developer

Mar 2026 - Present

Web Roots — *Part-time*

- Developed and maintained business-focused WordPress websites with a focus on performance and scalability.
- Designed responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Optimized website performance and loading speed (caching, image optimization, Core Web Vitals).
- Integrated plugins and third-party services to extend website functionality.
- Troubleshoot and resolved technical issues to ensure a smooth user experience.

Technical Projects

URL Shortener Web Application | [GitHub](#)

- Built a full-stack URL shortening app using React, Node.js/Express, and MongoDB
- Implemented JWT authentication with secure registration/login and a responsive dashboard
- Features include click tracking, URL management

Keeper - Note-Taking Web App | [GitHub](#)

- Engineered a responsive note-taking application inspired by Google Keep, leveraging React for dynamic UI updates
- Implemented efficient state management to handle real-time note creation, editing, and deletion
- Designed a modular component architecture to ensure code reusability and maintainability

Jokes RESTful API | [GitHub](#)

- Developed a RESTful API using Node.js and Express to manage a jokes collection with full CRUD operations
- Designed 8+ endpoints, including random joke retrieval, type-based filtering (Science, Puns, Dad Jokes), and partial updates to existing resources
- Implemented master-key authentication to secure sensitive operations such as bulk deletion

Education

Faculty of Science – Zagazig University

Oct 2019 - Feb 2025

Bachelor of Science in Computer Science & Mathematics.

Relevant Coursework: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, Databases.

Skills

Languages: JavaScript, C++, Java, Bash.

Web Development: Node.js, Express.js, React.js, HTML5, CSS3, EJS, Bootstrap.

Databases: PostgreSQL, MongoDB.

Tools & DevOps: Docker, Git/GitHub, Linux.
